Projects

Digital Marketplace - FUXTR Oct 2023 – Feb 2024

Tools: React, MongoDB, Express.JS, Node.JS.

My Role: Design, Component Interfacing, API's.

Fuxtr is a dynamic online marketplace designed to streamline the process of buying and selling products. Whether you're a seller looking to reach a wider audience or a buyer searching for the perfect item, Fuxtr offers a user-friendly platform to meet your needs.

Responsibilities:

- Ensure a seamless user experience with intuitive navigation.
- Secure payment processing and data protection.

Portfolio Website March 2024

Tools: React.JS, Tailwind CSS, Motion Framer

OPERATING SYSTEM – Windows.

Developed a dynamic and user-friendly portfolio website designed to effectively present my work and professional background. The site highlights various projects, coding skills, and my journey as a developer.

Responsibilities:

- Provide a downloadable version (e.g., resume or CV) for easy access.
- Ensure mobile responsiveness and cross-browser compatibility.
- "[Portfolio Link](#)".

Netflix Clone FrontEnd July 2024

Tools: HTML, CSS, JavaScript

The Netflix clone is a static web application that mimics the core features of Netflix, such as browsing movies/shows and playing trailers.

Responsibilities:

- User Interface Design: Layout, Navigation, Content Display.
- User Experience: Intuitiveness, Accessibility, Performance.
- "[GitHub Link](#)".

Weather Application June 2024

Tools: HTML, CSS, JavaScript, API

Designed and developed a responsive web application using HTML, CSS, and JavaScript to display real-time weather information.

- Enhanced user experience with full responsiveness and compatibility across multiple devices.
- "[Project Link](#)"

Certificates & Courses.

- **IBM and Design Thinking by IBM SKILLBUILD - 2024**
- **Web Development by CODSOFT - 2024**
- **Full Stack Java with Angular by ANUDIP FOUNDATION - 2024**
